Professional Summary

Detail-oriented and customer-focused IT Support professional with hands-on experience supporting Windows and Linux environments, troubleshooting complex technical issues, and working directly with end users to resolve problems efficiently. Experienced in Tier 1 and Tier 2 support, ticketing systems, remote troubleshooting, and system administration tasks gained through internships and contract-based work. Known for patience, strong communication skills, and a methodical approach to identifying root causes. Highly motivated to grow within a product-focused support role that blends customer interaction with technical problem-solving.

Core Technical Skills

- Software & Technical Support (Tier 1 & Tier 2)
- Windows & Linux Operating Systems
- Remote Support
- IT Service Management (GLPI)
- Troubleshooting & Root Cause Analysis
- Basic Networking (TCP/IP, DNS, HTTP/HTTPS)
- System Monitoring & Logs Analysis
- Microsoft 365 Support
- On-Prem Active Directory
- IT Asset Management & Device Deployment
- Virtualization & Cloud Fundamentals (AWS/Azure)
- Documentation & Knowledge Base Writing

Professional Experience

IT Support Intern

Posta Kenya — Nairobi, Kenya

October 2024 – January 2025

- Delivered Tier 1 and Tier 2 technical support to staff, resolving software, hardware, and network-related issues with minimal downtime.
- Supported Windows desktop environments and Microsoft 365 applications, handling user access and endpoint-related challenges.
- Logged, tracked, and resolved incidents using GLPI, IT Service Management, ensuring accurate documentation and timely resolution.
- Performed on-prem Active Directory tasks, including enabling/disabling accounts, password resets, unlocking accounts, and updating user attributes under controlled permissions.
- Provided remote technical assistance using TeamViewer and AnyDesk.
- Assisted with software installations, configuration, and maintenance of computer systems, printers, and peripheral devices.
- Participated in IT asset management including device deployment, inventory tracking, and equipment decommissioning.
- Documented recurring issues and resolutions to support internal knowledge sharing.

Software Development Intern

Macangira Africa — Nairobi, Kenya

May 2022 – July 2022

- Assisted in developing and maintaining backend and frontend components of web-based applications.
- Helped troubleshoot application-level issues, strengthening skills in debugging, log analysis, and systematic problem-solving.
- Collaborated with developers to test features, review code, and improve overall system reliability.
- Gained exposure to how software is deployed, maintained, and supported in production environments.

Data Annotator (Contract)

Clickworker — Remote

- Annotated and validated datasets for AI and machine learning projects, ensuring accuracy and consistency.
- Followed strict guidelines while handling repetitive, detail-intensive tasks.
- Strengthened focus, quality control, and documentation discipline relevant to technical support roles.

Education

Bachelor of Science in Software Engineering

Multimedia University of Kenya — Nairobi, Kenya

2017 – 2025

Relevant Coursework: Cloud Computing, Software Engineering, Systems Analysis, Database Management, Web Technologies

Software Development Program

PLP Academy

Intensive 16-week training focused on modern software development tools and practices.
